Trauma & Attachment SYMPOSIUM

"Translating Science Into Practice"

In recent years, there has been an explosion in research and knowledge of how traumatic experience and toxic stress shape the nervous system and ultimately the ability to become self-aware, self-regulate, relate to others, play, learn and work.

Join us for our 2nd Annual Trauma and Attachment Symposium, as we assemble internationally renowned, interdisciplinary professionals exploring the prevailing, best, and promising practices for those working with people with trauma and attachment-related needs and goals.

Tickets

Early Bird- By April 15th

Individual: \$279

Students: \$199

Groups of 3 or More: \$199

After April 15th:

Individual: \$299

Students: \$249

Groups of 3 or More: \$249
